

**NEW!**

# LED Multi-purpose Luminaire 2010

Perfect for narrow spaces on a vessel

## Our new compact non-metallic LED luminaire

We are expanding our range of **non-metallic luminaires** with our new **LED Multi-purpose Luminaire 2010**. Its lightweight and circular design is particularly suitable for installation in areas where there is not much space, such as hatch coaming areas or passage ways. Whether indoor or outdoor: Material and manufacture ensure the luminaire meets the demands of the rough seas. Thanks to the compact design installation is quick, easy and process-optimised – without having to open the luminaire. The power connection is made via an external connector.

### More details

### Technical data

Protection class	IP66 / IP68	Wattage	15 W
Temperature range	-25 °C to 50 °C	Voltage	110 – 230 V DC, 24 V DC
Material housing	PBT	Rated lifetime	L90/B10 @Ta +45 °C
Material globe	Polycarbonate	System lifetime	50,000 h
Luminous flux	1,600 lm	Color temperature	4,000 K
