

# WISKA MARITIME LIGHTING

A high quality standard is very important to us in the development and production of our products. That is why we rely on the latest technologies when manufacturing our products.

Technology such as our state of the art robotics machine helping to ensure our light covers are assembled accurately and precisely every time.

## Features

Protection class	IP66 / IP68 (0,2 bar 30min)
Temperature range	-25 °C - 50 °C
Material	PBT

Variants: Available with one or two external push-in connectors

## LED Multi-purpose Luminaire 2010 HIGH PERFORMANCE

- **High-quality material:** Glass fibre reinforced PBT housing, UV resistant
- **Quick and easy installation** – without having to open the luminaire.
- **High protection class** IP66 / IP68
- Vibration-proof
- **Compact design:** circular and lightweight construction
- Available as multi-voltage version 110 - 230 V or as a 24 V DC version

WISKA-No.	Type	Voltage	Globe colour	Through wiring
